

ENVIRONMENTAL POLICY

Portland Holdings (Pty) Ltd cares about the environment and recognizes that concern for the it should be an integral and fundamental part of our operations and that these activities should be an ongoing contribution to sustainable development.

Accordingly, Portland strives to:

1. Comply with all relevant and future environmental legislation and take any additional measures considered necessary to prevent or minimize air, ground, water and ground water pollution
2. Work to improve the effectiveness of our Environmental Management System and our Environmental Management Programmes
3. Provide appropriate training to ensure the effective involvement of all employees
4. Support and promote environmental awareness and responsibility amongst neighbours, suppliers, contractors and customers
5. Identify and take preventive actions to manage potential and actual environmental impact of our activities, products and services
6. Set objectives and targets and measure and monitor the significant environmental aspects and impact of our activities, products and services.
7. Be prepared for emergency situations and respond appropriately to such situations should it occur within our management sphere;
8. Maintain open relations with employees, authorities and other interested and affected parties.
9. Carry out environmental impact assessments on any proposed ventures and make these available to interested parties as well as identify the impact from existing operations and take steps to reduce this to an acceptable level.
10. Communicate and report effectively on environmental management and continually audit the policy to ensure continual improvement,
11. Review the Environmental policy annually to ensure that improvement of the Environmental Management System can be measured against improvement in municipal, national, international standards and other environmental guidelines.
